

## Grant Managers Swap in Salmon Section

There has been a recent staff change in the Salmon section at the Recreation and Conservation Office. Marc Duboiski will be managing projects full time and **Tara Galuska** is stepping into the Outdoor Grants Manager Senior position. In addition, workload has been evaluated for each Outdoor Grant Manager to create an even distribution of projects. To address these changes and ensure a good distribution of projects, some of the Lead Entity assignments have changed.

- **Dave Caudill** now will be the outdoor grant manager for West Sound Watersheds Lead Entity and Pierce County Lead Entity. His contact info is [dave.caudill@rco.wa.gov](mailto:dave.caudill@rco.wa.gov) and 360-902-2649.
- **Marc Duboiski** now will be the outdoor grant manager for WRIA 8, WRIA 9, Nisqually, Mason, and Thurston lead entities. His contact information is [marc.duboiski@rco.wa.gov](mailto:marc.duboiski@rco.wa.gov) and 360-902-3137.

These are the only changes, and the change is effective starting this week.

The assignments can be viewed on the updated map on our Web site at:
